

MINI-COMPACTOR

MODEL 3115

THE COMPACT 3115 is ideal for small volumes of plastic foil, but is also designed for cardboard compaction. A material selector makes the choice easy! The cross-binding function gives a tight grip of the bale and is helpful for compaction of soft plastic or small pieces of material.

FEATURES & OPTIONS

MORE PRODUCTIVE USE OF TIME

Less time spent on waste handling, more time for your core activities!

MORE SPACE & ORDER

Our balers rapidly minimize the space the waste takes up, keeping aisles free and tidy.

LESS COSTS, MORE VALUE

More compaction = less waste volume to transport. Fewer transports required results in lower transportation costs and reduced CO2 emissions. Sorting at source yields a higher quality of waste material for recycling.

PREPARED FOR CROSS-BINDING

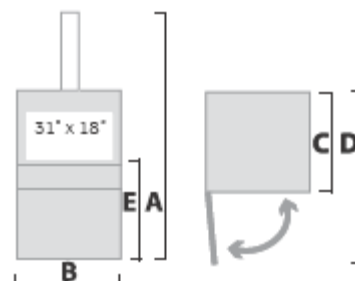

3115 is designed for cross-binding, a function that helps secure the bales and one that is particularly useful when compacting small pieces of material.

AUTOSTART FOR EFFICIENT COMPACTION

An autostart function allows the baler to start compacting the material as soon as you close the door.

MATERIAL SELECTOR

A material selector makes the choice between compacting cardboard and plastic easy.

WEIGHT (MACHINE) TOTAL: 838 lbs

SPECIFICATIONS			
Loading Aperture	31" w x 18" h	Bale Weight	Cardboard: up to 130lbs Plastic: up to 190lbs
Cycle Time	33 secs	Noise Level	57 db (A)
Press Force	HP 13,200 lbs LP 8,800 lbs	Protection Class	IP 55
Bale Size	32" w x 24" d x 23" h	Operating Power	Single Phase 115 V, 60 Hz, 15 A

DIMENSIONS	
A	6' 7"
B	37"
C	31"
D	61"
E	26"
