

MULTI-COMPACTOR MODEL 9020

This multiple-chamber solution provides sorting and compaction of different types of materials in one unit! The chambers allow for a lot of material and the system can easily be extended by adding additional chambers.

FEATURES & OPTIONS

MORE PRODUCTIVE USE OF TIME

Less time spent on waste handling, more time for core activities!

MORE SPACE & ORDER

Our balers rapidly minimizes the space the waste takes up, keeping aisles free and tidy.

LESS COSTS, MORE VALUE

More compaction = less waste volume to transport. Fewer transports required results in lower transportation costs and reduced CO2 emissions. Sorting at source yields a higher quality of waste material for recycling.

HIGH-CAPACITY SYSTEM

The 9020 is a powerful machine with large chambers and generous loading apertures. It provides effective volume reduction of large amounts of recyclables.

EFFICIENCY

Whilst the baler compacts the material in one chamber, the other is open and ready to be fed with more material!

EXTENDABLE SYSTEM

It is easy to add additional chambers to extend your sorting and compaction system, and increase its capacity further. When your business expands and your needs change, let your waste handling system grow at the same pace!

SPECIFICATIONS			
Loading Aperture	43" w x 28" h	Bale Weight	Cardboard: up to 440 lbs Plastic: up to 660 lbs
Cycle Time	35 secs	Noise Level	< 72 db (A)
Press Force	44,000 lbs	Protection Class	IP 55
Bale Size	43" w x 27" d x 31" h	Operating Power	3 phase 208 v/3/60 hz 3 phase 460 v/3/60 hz, 20 A

DIMENSIONS	
A	8' 1"
B	98"
C	38"
D	86"
E	55"
F	6' 3"
