

## HORIZONTAL BALER – MODEL HE-60 SERIES

The "HE Series" Horizontal Baler is designed with our largest clear top opening, almost 25% larger than our largest 72" Horizontal Baler and can be used with or without a conveyor system.

Designed for ease of installation, operation and maintenance the baler can operate manually or automatically with photo electric cell control. The HE-60 is ideal for warehouses, users baling waste paper, corrugated, newsprint, office white, plastics, foam rubber, light aluminum and other recyclables without pre-conditioning or fluffing required.
