

PILL BOTTLE SHREDDERS – SERIES 1

The **Series 1 Pill Bottle Shredders** include a hopper to contain the pill bottles that sits on top of the infeed conveyor. The hopper holds 20-25 medium-sized pill bottles. The shredders are available in 5-10 horsepower models. They look identical but each successive model has more power, a larger drive train and greater shredding capacity. All components, including the shafts, cutters and bearings, are sized for the largest horsepower in the series. Our pill bottle shredders are manufactured from solid steel and have individual precision-ground cutters.

The shredders include cross cut cutters that are manufactured from a high-grade alloy known for its durability and ability to hold a cutting edge. Each pill bottle shredder model has a paddle wheel crusher in front of the cutters and low voltage, key locked controls. The electrical components are housed in a dust-proof enclosure and a current sensing relay automatically stops the shredder in the event of a jam.

FEATURES

- Solid steel construction
- Urethane infeed belt
- Infeed hopper
- Capacities are reduced with single phase power
- Output conveyor additional
- Auto lubrication recommended

SPECIFICATIONS

- **Motor** – 5, 7.5 or 10 HP
- **Cross Cuts** – ¼" x 1 7/8", 1/8" x 1 ½", 1/8" x 5/8"
- **Infeed** – 16" wide
- **Voltage** – 208/230/460v, 1 or 3 Phase
- **Output** – Discharge bag or conveyor
- **Dimensions** – 59" L x 36" W x 48" H
- **Warranty** – One year on parts
