

REM® EZ-LINE SORTING SYSTEM

Processing Commingled Materials? REM's® EZ-Line sorting systems is the solution for you! Designed to handle up to 30 tons per 8 hour shift, this portable system features a TCH Transfer Conveyor, feeding a SC Sorting Conveyor with a stainless steel section, and a CBS Crossbelt Magnetic Separator for ferrous materials. Get your workers off the floor and start sorting materials more efficiently and save on your largest expense, labor! Achieve even greater efficiency with a Below Grade (BG) Hopper for a more permanent solution. This system is available in many different configurations and sized to meet your individual requirements.
