

## COMMERCIAL DRUM CRUSHERS

### MODEL V43DC

At over 50,000 pounds of crushing force, the Model V43DC is designed to compress a 55 gallon drum to 5" high. Simple pushbutton operation and automatic cycling makes this machine ideal for a military installation, a pharmaceutical processor or a manufacturing plant and recyclers. This unit can be converted into an inside-the-drum waste compactor by getting an extra compaction head sized for a 55-gallon drum. You have the option of doing this now or years down the road.

**Drum Crusher Benefits:** • Reduces Storage Space up to 80% • Save on Transportation Costs • Safer Environment • In Drum Packing for: Oil Filters, Screens, Smaller Drums or Containers

## SPECIFICATIONS

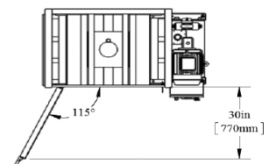

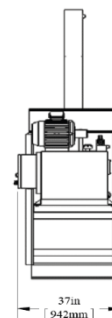

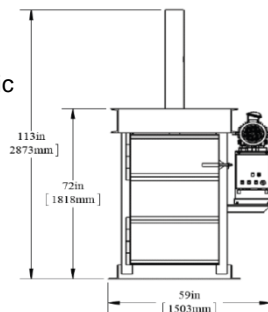

- Compact Force lbs (Normal / Maximum) 56,548 / 62,202
- Platen Pressure 40 PSI
- Average Cycle Time 48 Seconds
- Motor HP 10
- Voltage 3 Phase, 208V, 230V, 480V
- Full Load Amps 30A, 28A, 14A
- Pump GPM 10.5
- Normal System Pressure PSI 2000
- Maximum System Pressure PSI 2200
- Cylinder Bore 6"
- Hydraulic Tank-Capacity Gallons 22

## HIGHLIGHTS

- 56,000 hydraulic force for inside drum compaction/drum crushing *f*
- 6" Cylinder
- Drum Piercing: Punch a hole through the top or all the way through the bottom
- ANSI Z245.5 Compliant - All balers meet or exceed ANSI Z245.5 safety standards. *f*
- UL/CUL Listed Control Panels
- Oil Sight Gauge - Oil level at a glance
- Heavy Duty Controls - NEMA 4 rated pushbutton controls with key-lockable start switch

## AVAILABLE OPTIONS

- **Alternative Compaction Head** - (CH): Compact waste into the drum with the same machine
- **Bolt-on-Crush Plate** - (CP): For quick change-out between crushing and compacting
- **Explosion-Proof Controls:** non-sparking hydraulic or pneumatic control circuits
- **Liquid Containment:** Control spills or leftover residue
- **RAM Bottom Lock Control:** Keep plastic drums crushed
- Special Custom Options
