

## DEWATERING SELF-DUMPING HOPPERS

For wet materials, we offer a wide range of dewatering forklift dump hoppers. Each tipper features a steel body construction with perforated patterns for optimal drainage. Available in a vast selection of sizes, all models offer load capacities of up to 6,000 pounds. Select from watertight steel, vinyl tarp and mesh tarp covers to keep contents secure during transport. Choose these dumpers for pulp, waste, aggregate and other wet material applications.

### FEATURES

- 1/4" plate steel body with perforation pattern of  $\varnothing$  1/2" holes on 11/16" staggered centers net 48% open area.
- Z-bar base with exclusive extruded trunnion track & taper pins for wear resistance.
- Ductile iron lift up release handle with secure flip latch.
- Base to body chains.
- Roura safety green paint.
