

## ORWAK FLEX SERIES

### VERSATILE WASTE HANDLING & COMPACTION

The Orwak Flex product family features a collection of applications to meet special needs in waste handling and compaction – e.g. for mixed waste in bags or semi-dry waste. You can also compact general waste in your bins using our new multiple-chamber top-loading waste compactor! It is a robust and reliable machine with a compact and lightweight design. Simply “Roll in! Compact! Roll out!” Our product family FLEX delivers the solutions you are looking for!

Compact general waste in 64 gal bins in our waste compactor **4240!** It is a robust and reliable machine with a compact design and is perfect for the hotel and restaurant sector, where general waste needs to be disposed of in waste bins. The in-bin compactor provides impressive volume reduction, contributing to valuable space-saving and a more profitable waste management.

The **4360** is perfect for the hotel and restaurant sector as well, where general waste needs to be disposed of in 96 gal bins. The in-bin compactor provides impressive volume reduction, contributing to valuable space-saving and a more profitable waste management.

The **5030** in-bag compactor is a versatile and easy-to-use unit! It allows for the hygienic compaction of mixed waste and achieves a compaction ratio up to 10:1. The plastic bag can be used for most types of waste - despite the fact that the press force is three tons.

## SAFE AND USER FRIENDLY

These models are user friendly! The multichamber version is a convenient top-loading installation, while the single-chamber version has an easy wheel-in, wheel-out operation. Safety and quality are our hallmarks and the compactor provides maximum personal safety both for the operator and those in the immediate vicinity. A bin indicator assures that the machine can only start, when the bin is in the right position.
