

ORWAK MULTI SERIES TOP LOADED MULTI-CHAMBER BALER

ORWAK MULTI is a range of top-loaded multi-chamber balers designed to facilitate sorting and compacting different types of material at source.

These balers feature duo chambers as standard but the installation can easily be extended with additional chambers to grow in pace with your business and the multi-chamber solution can even form a mini-recycling station.

Compact in one chamber, while you fill up the next!

5070 & 5070-HDC: bale removal by trolley

5070-HDC features cross-binding

WHY ORWAK MULTI?

- Sorting and compaction of several waste types at source
- Top-loading of the material in open chambers
- Compact waste in one chamber, fill up the next with material at the same time!
- Total freedom to increase capacity by adding additional chambers
- Heavy-duty cross-binding version for challenging waste types such as food and paint cans, jugs and even light wood packaging

FEATURES

- Safety feature: two hand operation of the press unit
- Safety brake when sliding the press unit to the next chamber
- 9020S: generous loading apertures and semi-automatic bale ejection
