

COMPACTORS INC

Recycling and Waste Management Solutions

MODEL Packer & Baler 24-30

- ▶ The 24-30 will compact extra volumes of trash, cardboard and other wastes that can be baled or bagged
- ▶ Best choice for commercial and industrial applications
- ▶ Extremely sanitary, enhances cleanliness of the facility and requires minimal maintenance
- ▶ Reduces the number of times your waste is picked up during each week by your waste hauler
- ▶ The 24-30 has a high quality steel cabinet with rugged baked powder coat paint finish
- ▶ Includes a high density plastic, easy to clean dolly which has a lift off sleeve, pop-up handle and casters for an easy trip to the dumpster
- ▶ Strong single pivot hinging doors, steel spin locks, 2 cones of twine and patented twine threader holders for baling and easy access rear door to service electronics
- ▶ Mounted on four casters
